**Academic work should be characterised by sustainability, diversity, and equal opportunities: it should provide quality in a holistic sense, whereby quantity and speed should not be the primary considerations. The Better Science Initiative contributes to a rethinking of the current paradigm of quantifiable scientific and scholarly work. [www.betterscience.ch](http://www.betterscience.ch).**

**The event is dedicated to the question of research culture as the basis for academic excellence. What kind of research culture enables everyone to do excellent work? How can academic leaders and universities contribute to this?**

**Impuls lecture on excellence and equal opportunities**

**Prof. Dr. Julia Nentwich**, Research Institute Organisational Psychology, University of St. Gallen

**Discussion guests**

**Dr. Laetitia Philippe**, Management board SNSF (Development of Research)

**Prof. Dr. Hugues Abriel**, Vice-rector research, University of Bern, Director NCCR Transcure

**Dr. Lucas Müller**, Postdoc University of Geneva, Speaker Swiss Young Academy

**Moderation**

**Monika Hofmann**, M.A., Project manager, Interdisciplinary Centre for Gender Studies, University of Bern, radio journalist

**The event is supported by the Swiss National Science Foundation SNSF.**
